ACCOUNTING & TRANSACTIONS IN QPLIX | DURATION: 3 HOURS

This seminar provides basic knowledge about accounting and transactions in QPLIX, which form the basis for successful transaction entry. We offer separate seminars on the creation and transaction recording of liquid and illiquid assets.

After this seminar

- you know the underlying accounting logic in QPLIX and know in which software sections the accounting configuration can be reviewed and edited,
- you understand the structure and functionality of charts of accounts,
- you are familiar with the transaction mask and the transaction record,
- you understand the concept of entry types,
- you are able to find, check and adjust transactions,
- you are able to link documents (e.g. transaction documents) with related transactions.

Required QPLIX knowledge

- For newcomers we recommend the course "Introducing QPLIX", which gives first impressions of the composition and structure of the software.

Content

- Accounting in QPLIX
- Transaction entries
- Chart of accounts
- Transaktion records (including entry types)
- Find, check and adjust transactions
- Transactions and documents

Further information

- The contents of this seminar are standardized and demonstrated on a training system.
