

SEMINARS

05.05.2022 | 190,00 EUR
9 - 12H

INTRODUCING QPLIX | DURATION: 3 HOURS

In the QPLIX Intro you will get to know the vision and the ambition behind the software QPLIX. You will get an overview of the fundamental concepts, software sections and their interrelationships. You will learn how to navigate in QPLIX and how we support you in your daily work with the software.

After this seminar

- you know the most important key functions of the QPLIX software,
- you know the products offered and their features,
- you understand our agile way of working and how it benefits you,
- you are familiar with all the support options to help yourself quickly,
- are familiar with the different system sections and can navigate within QPLIX,
- you understand the most important concepts and interrelationships of the software, which are the basis for a successful usage.

Required QPLIX knowledge

- None. The event is intended for participants with first contact with the software and its basic idea and functionality.

Content

- Presentation of the QPLIX history of development, the most important key functions and products
- Introduction into the cooperation with QPLIX, including presentation of the agile way of working and the extensive support services
- Presentation of the general software structure and the different system sections
- Presentation of the most important basics such as the display of ownership structures and assets, the idea of accounting logic in QPLIX as well as the basic idea behind our analysis and reporting tool

Further information

- The contents of this seminar are standardized and demonstrated on a training system.
